

MUSTANG MACH 1

The Mach 1 branch of the Mustang family tree has a heritage as good as it gets. It evokes sepia-toned memories of screaming small blocks and thundering Cobra Jet big blocks. Of legendary styling and hole-shots, podium finishes and max respect...on the street and at the track.

Our Steeda engineers, they have a heritage to live up to as well. They come from a long and proud line of racers, hot shoes and gearheads. These are folks who study torque curves and racing lines just for fun. They've been through an apex or two, so they know that with enough raw power most anyone can get to a corner first. What counts, is being the first one out.

With that in mind, they set out to build the most track-worthy Mustang Steeda has ever offered. And they succeeded. Beyond our wildest imagination.

With subtle nods to the Mach 1 of days gone by – from the shaker hood scoop and performance levels that are second to none, did they ever. And then they added state-of-the-art suspension and powertrain performance upgrades that will set the pace for years to come; they did themselves proud!

Parade laps are cool. But victory laps are even cooler!

MUSTANG MACH 1

The Steeda Mach 1 is our fiercest track-ready car yet. With an unmatched blend of raw power and refined handling, we've made the Steeda Mach 1 a force to be reckoned with - wherever the big boys gather to play. Check out a few of the sophisticated goodies we've added....
